## A Record Summer For Power Transmission Lines

Over the years, XEOS Imaging has developed a solid expertise in the power transmission line market.

This summer, the company has been awarded a record number of contracts all over North America supplying a powerful tool for vegetation control management.

Do you have any similar projects?

Now is the time to take advantage of significant cost reductions.

## Fund Raising Event With Leucan

For many years already, Leucan has been known for its great implication in helping children diagnosed with cancer.

A unique fund raising event called the "Shave Your Head Challenge" takes place every year and this time, the three partners of XEOS Imaging took up the challenge.

For each donation, the company doubled the amount given. The result: a total amount of \$ 5,000 has been raised.

We take this opportunity to thank all our supporters for their great generosity.
