

## Renewed Commitment to AQGV

XEOS Imaging is proud to announce its participation as a **Gold Partner** at the 2008 Conference of the **Association Québécoise de gestion de la végétation**. This event will be held on **October 21-23 2008** at the **Victorin Hotel in Victoriaville, PQ, Canada**.

XEOS Imaging will attend this event in October and our team hopes to meet you there!

## Exceptional Accuracy Without GCP

The conventional methods call for a ground surveying team to position Ground Control Points to achieve the desired accuracy.

The XEOS® technology can eliminate this step, significantly reducing delivery time and cost of the project. Here are few examples:

Resolution	<b>XEOS® accuracy without Ground Control Points</b>	XEOS® accuracy attainable with Ground Control Points
4 in (10 cm)	<b>1 yd (1 meter)</b>	8 in (20 cm)
8 in (20 cm)	<b>1,9 yd (1,75 meters)</b>	16 in (40 cm)
12 in (30 cm)	<b>2,73 yd (2,5 meters)</b>	24 in (60 cm)

Do not hesitate to contact us for further information.

## XEOS in Houston

XEOS Imaging is now an associate member of the Southern Gas Association.

This membership brings new opportunities to XEOS in the energy market, particularly within the Gulf Area.

## GITA 2008 Cancelled

GITA's Conference 2008 was cancelled due to hurricane IKE.

We will keep you informed of the next conference dates and location.
